

Plug Catcher

Description

Plug Catcher is designed to collect debris, solids, and pieces of isolation plugs during frac drilling and flow back operations. Pts offers dual barrel plug catcher to allow constant flow of the well.

Applications

Plug Catcher is used:

- During drilling out isolation plugs, after fracturing operations.
- Well clean-up, allows to capture, cement, solids, fragments of casing, and debris.
- Reduce or eliminate equipment plugging.

Operating Specification

TYPE	3 in. x 3 in. H2S, 9 Valve (Plug Valves), Gear operated. Dual Barrel. NACE MRO175
BARREL	5 in. ID
SCREEN	3-1/2 in. ID
VALVES	9 EA. – 3 in., 10K Plug Valves Gear Operated, NACE
MAX. WORKING PRESSURE	10,000 psi
SERVICE	NACE
INLET	3 in. 1502 WECCO
OUTLET	3 in. 1502 WECCO
BY PASS	3 in. with 3 in. Plug Valve Gear Operated
SKID DIMENSIONS L x W x H	11 ft. x 5 ft. 5 in. x 2 ft.
WEIGHT	12,000 lbs.
